

SHIFT INTO HIGH GEAR NOW
ONE TIME SPECIAL BONUSES
FOR TRAINING AND CUSTOMER AQUISITION

To reward early IBO leadership during our pre-launch, **ECOMATES™** has created two special growth bonus incentives. These bonuses have been designed to reward IBOs that demonstrate their leadership by their hard work, commitment to proper, consistent training of new IBOs, AND high levels of customer acquisition during the **ECOMATES™** pre-launch.

SUPER START TRAINING BONUS

During the pre-launch, new IBOs who are active with at least 200 PV who conduct super start training for at least three (3) personally enrolled IBOs in their first FULL four week cycle (including any partial week prior to their first full four week cycle), where those same newly enrolled IBOs purchase an **ECOMATES™** Preferred Product Pack, will earn points toward a one-time Super Start Training Bonus according to the following tables:

Point Table:

Preferred Product Packs (PPP):	Points:
1 Platinum Pack	1
2 Platinum Packs	1.5
3 Platinum Packs	2.5
4 Platinum Packs	3.5

Super Start Training Bonuses:

3 points:	\$125 SSB
6 points:	\$250 SSB
9 points:	\$375 SSB
12 points:	\$500 SSB

Benefit Extension Tables

IBO's may extend the Super Start Training Bonus benefit one time beyond their first full four week cycle according to the following table:

<u>Points Achieved:</u>	<u>Additional Four Week Cycle(s)</u>
3 points	1
6 points	2
9 points	3
12 points	4

Please note that IBOs eligible for this benefit for two (2) or more additional four week cycles must earn at least 3 points in each successive 4 week cycle in order to receive the above one-time extension.

CUSTOMER ACQUISITION REVENUE SHARING POOL

During the pre-launch, IBOs that become qualified and demonstrate by precept and example effective customer acquisition by moving multiple Preferred Product Packs into production within their first FULL four week cycle, or become qualified and move multiple or additional Preferred Product Packs within their second 4 week cycle, may share in 2% of the first 500K in weekly PV produced by all **ECOMATES™** IBOs during and after the pre-launch. This personal achievement will lock in your pool share multiplier value for this revenue sharing pool for as long as you remain continuously active with at least 200 PV.

† Please note that Convenience Packs may be counted after any initial Platinum Pack.

Each week that you personally enroll a new IBO who has also met the above requirements, you will receive multiple shares in the Super Start Revenue Sharing Pool in relation to your production.

Your Level of Production: Revenue Share Multiplier:

2 - Platinum Packs †	2
3 - Platinum Packs †	3
4 - Platinum Packs †	5

Your Level of Personal Production:

	PPP	2 - Platinum Packs	3 - Platinum Packs	4 - Platinum Packs
Level of	2 - Platinum Packs	4	6	10
New IBO	3 - Platinum Packs	6	9	15
Production	4- Platinum Packs	10	15	25
